INDEPENDENT AUDITOR'S REPORT

To the First Selectman and the Members of the Finance Committee Town of Trumbull. Connecticut

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Trumbull, Connecticut (the "Town") as of and for the year ended June 30, 2008, which collectively comprise the Town's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Trumbull, Connecticut as of June 30, 2008, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary information for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with "Government Auditing Standards," we have also issued our report dated December 29, 2008 on our consideration of the Town of Trumbull, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with "Government Auditing Standards" and should be considered in assessing the results of our audit.

The management discussion and analysis on pages 3 through 10 is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The budgetary detail and combining and individual nonmajor fund statements and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The budgetary detail, combining and individual nonmajor fund statements and other schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

McGladry of Pullen, LLP

New Haven, Connecticut December 29, 2008

TOWN OF TRUMBULL, CONNECTICUT MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2008

The Town of Trumbull's (the "Town") Management's Discussion and Analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Town's financial activity, (c) identify changes in the Town's financial position (its ability to address the next and subsequent year challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns. The Management's Discussion and Analysis (MD &A) is designed to focus on the current year's activities, resulting changes and currently known facts and the Town's financial statements (beginning on page 11).

Financial Highlights - Primary Government

- On a government-wide basis, the assets of the Town of Trumbull exceeded its liabilities resulting in total net assets at the close of the fiscal year of \$102.5 million. Total net assets for Governmental Activities at fiscal year-end were \$55.1 million and total net assets for Business-Type Activities were \$47.4 million.
- On a government-wide basis, during the year, the Town's net assets increased by \$15.1 million.
 Net assets increased by \$9.2 million for Governmental Activities and increased by \$5.9 million for Business-Type Activities.
- At the close of the year, the Town of Trumbull's governmental funds reported, on a current financial resources basis, combined ending fund balance of \$14.7 million, which is an increase of \$.1 million from the prior fiscal year.
- At the end of the current fiscal year, the total fund balance for the general fund alone was \$15.7 million, and a decrease of \$.6 million from the prior fiscal year. Of the total general fund balance as of June 30, 2008, \$13.8 million represents unreserved general fund balance and is available for spending at the government's discretion. Unreserved general fund balance at year-end represents 10.5% of total general fund expenditures of \$131.8 million.
- The Town of Trumbull's total debt increased by \$9.5 million or a 8.2% increase during the current fiscal year. The key factors in the increase were the issuance of \$15.0 million of General Obligation Bonds to fund the continuing development of sewer improvements of which is funded by the enterprise fund.

Overview of the Financial Statements

This discussion and analyses are intended to serve as an introduction to the Town of Trumbull's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town's improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

The governmental activities of the Town include general government, public safety, highways and streets, solid waste disposal, human services and culture and recreation activities

The Business-type activities of the Town include the Water Pollution Control Authority and the Tashua Knolls Golf Course. They are reported here as the Town charges a fee to customers to help cover all or most of the cost of operations.

The government-wide financial statements (statement of net assets and statement of activities) can be found on pages 11 and 12 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control and accountability over resources that have been segregated for specific activities or objectives. The Town of Trumbull, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Town of Trumbull has three kinds of funds:

Governmental funds. Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures, and change in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted to cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and buildings. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's total assets and total liabilities is labeled as the fund balance, and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the year.

For the most part, the balances and activities accounted for in governmental funds are also reported in the governmental activities columns of the government-wide financial statements; however, because different accounting bases are used to prepare fund financial statements and-governmental-wide financial statements, there are often significant differences between the totals presented in these financial statements. For this reason, there is an analysis at the bottom of the balance sheet that reconciles the total fund balance to the amount of net assets presented in the governmental activities column on the statement of net assets. Also, there is an analysis at the bottom of the statement of revenues, expenditure, and changes in fund balances that reconciles the total change in fund balances for all governmental funds to the change in net assets as reported in the governmental activities column in the statement of activities.

The basic governmental fund financial statements (balance sheet and statement of revenues, expenditures and changes in fund balance) can be found on pages 13-14 of this report.

Proprietary funds. Proprietary fund financial statements consist of a statement of net assets, statement of revenues, expenses, and changes in fund net assets and statement of cash flows, and are prepared on an accounting basis that is similar to the basis used to prepare the governmental-wide financial statements. For financial reporting purposes, proprietary funds are grouped into Enterprise Funds and Internal Service Funds.

The Town of Trumbull maintains two different types of enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statement. The Town of Trumbull uses Enterprise funds to account for its Water Pollution Control Authority, and the Tashua Knolls Golf Course. Internal service funds are an accounting device used to accumulate and allocate certain costs internally among the Town's various functions. The Town uses an internal service fund to account for the acquisition and use of certain vehicles of departments of the Town, and the medical and workers' compensation reserves.

Because the internal service fund predominantly benefits governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The propriety fund financial statements can be found on pages 17-20 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to provide services to the Town's constituency. The Town has two pension trust funds. The basic fiduciary fund financial statements can be found on pages 21 and 22 of this report.

Notes to the financial statements The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23 through 59 of this report.

Government-Wide Financial Analysis

The Town's overall financial position and operations for the past year are summarized as follows based on the information included in the government-wide financial statements (see pages 11 and 12).

			Jun	e 30, 2008					Jı	une 30, 2007		
		Pi	imar	y Governmer	nt			Ī	Prima	ary Governmer	nt	
				Business-						Business-

Net Assets:												
Inv. in cap assets, net of related debt		89,418		19,242		108,660		82,710		21,624		104,334
Unrestricted (deficit)		(34,338)		28,198		(6,140)		(36,870)		19,945		(16,925)
Total Net Assets	\$	55,080	\$	47,440	\$	102,520	\$	45,840	\$	41,569	\$	87,409

By far the largest portion of the Town of Trumbull's net assets reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Trumbull's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In the current year, the noncurrent liability increased due to an issuance of \$15.0 million in debt.

luno 20 2009

June 20, 2007

Trumbull's net assets increased by \$15.1 million during the fiscal year, with net assets of Governmental Activities increasing by \$9.2 million and net assets of Business-Type Activities increasing by \$5.9 million.

Key elements of this increase are as follows:

- The Town enjoyed overall positive results due to favorable grants reimbursements from the State
 of \$1 million, \$60,000 due to increase in B.O.E. tuition and rentals and fees of BOE building
 department revenues due to more permits
- Investment income increased during 2008 by \$211,000, due to higher interest rates.
- These factors more than offset the dramatic increases in education cost, debt service and workers compensation. Education costs increased due to an overall increase in the current year operating budget and due to higher on-behalf payments made by the State of Connecticut. Debt service costs increased due to new debt issued in Fiscal 2007. Workers' compensation increased due to ongoing open cases since 2005 and final settlements.

- In addition, the Town's tax revenue increased \$3.4 during the current year as a result of an increase in the mill rate.
- The increase in business-type activities was attributable to an increase in fees charged by both the WPCA and the Tashua Knolls Golf Course and an increase in Special Assessment billing in the WPCA.

Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balance of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$14.7 million. Of this amount the Town has an undesignated unreserved fund balance of \$12.3 million. The remainder of fund balance of \$2.4 million is reserved to indicate that it is not available for new spending because it has already been committed to liquidate contracts and purchase orders of the prior period.

General fund. At the end of the current fiscal year, unreserved fund balance of the general fund was \$13.8 million, while total fund balance reached \$15.7 million. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 10.5% of total general fund expenditures, while total fund balance represents 11.8% of that same amount.

Water Pollution Control Authority. The Water Pollution Control Authority (WPCA) had an unrestricted net assets balance at June 30, 2008 of \$24.8 million and net assets invested in capital assets, net of related debt of \$20.2 million. The increase in net assets for the current year relates to new sewer assessment project completed and billed.

Golf Course. The Tashua Knolls Golf Course had an unrestricted net assets balance at June 30, 2008 of \$.3 million and net assets invested in capital assets, net of related debt of \$2.1 million.

GENERAL FUND BUDGETARY HIGHLIGHTS

The difference between the original budget and the final amended budget for expenditures was \$.5 and the major contributing factors can be summarized as follows:

- There was a supplemental appropriation for \$50,000 to cover a purchase of land.
- There were several supplemental appropriation totaling \$394,000 of which \$27,000 was for Elections capital outlay, \$50,000 was for Emergency Medical Services salaries, \$190,000 for the security system at all the schools, \$27,000 for Trumbull Day, \$72,000 for vehicle gas and oil and \$30,000 for vehicle repairs.

However, the original budget to actual expenditure variance was an increase of \$2.3 million. The major reasons for the net variance are as follows:

• There was a surplus in the medical insurance of \$138,000 due to the fact that we are fully insured and premiums were lower that anticipated.

- There were surpluses of \$430,000 Purchasing \$40,000, Police \$47,000, Technology \$64,000, Finance \$30,000, Emergency Medical Services \$17,000, Public Works \$182,000, Snow removal \$50,000 due to various vacancies.
- There were surpluses of \$184,600 in various professional accounts Town Council \$32,600, Tax Assessor \$20,000, Town Attorneys \$20,500, Emergency Medical Services \$16,700, employee benefits \$16,000 Disposal area had a surplus of \$57,000.
- Board of Education has a surplus of \$1.0 million due to medical insurance reimbursements from retirees.
- Contingency had a surplus of \$50,000 due to the fact that only amounts needed to make the
 department whole were transferred for labor contracts settled because certain departments had
 vacancies that were not filled during the year.
- Sewer fees had a surplus of \$23,000, fire hydrants \$48,000 and street lights \$60,000.

The difference between the original revenue budget and actual revenues resulted in a net surplus of \$.700 million. This excludes the use of fund balance, which is the offset to supplemental appropriations requested for the fiscal year. The major reasons for the favorable variance are as follows:

- Grant reimbursements from the State of Connecticut had a favorable variance of \$1.2 million.
 These were attributed to an increase of \$738,000 in the Special Education Excess Cost Sharing Grant, \$234,000 in VOAG School Grant and \$166,000 in Tax Relief for Manufacturing.
- Interest Income recorded a surplus of \$211,000 due to more aggressive investing and better interest rates overall.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of year-end, the Town had \$234.9 million (net of accumulated depreciation) invested in a variety of capital assets, as reflected in the following schedule:

			Jui	ne 30, 2008					Jui	ne 30, 2007

General Obligation Bonds Notes Payable

Total

The Town of Trumbull's total debt increased by \$9.5 million or 8.2% during the 2007-08 fiscal year. The Town issued \$12 million in new bonds.

The Town of Trumbull maintains an Aa3 rating from Moody's Investors Service, AA by Standard and Poor's and Fitch Rating.

State statutes limit the amount of general obligation debt a governmental entity may issue to seven times its annual tax collections. The current debt limitation for the Town is \$801,908,415 which is significantly in excess of the Town's outstanding general obligation debt.

Additional information on the Town's long-term debt can be found on pages 43 through 49 of this report.

Relevant Current Economic Factors, Decisions, and Conditions

- The unemployment rate for the Town is currently 4.7 percent, which compares favorably to the State's average unemployment rate of 5.7 percent and the Bridgeport Labor Market of 5.3 percent.
- The Grand List growth has been less then 1% for each of the last three years.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the Town of Trumbull's annual budget.

Request for Information

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Lynn Heim, Director of Finance, 5866 Main Street, Trumbull, CT 06611.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2008

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances – total governmental funds	\$ 105,253
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by	
which depreciation exceeded capital outlays in the current period.	3,615,082
Revenues in the statement of activities that do not provide current financial	
resources are not reported as revenues in the funds.	(31,611)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	2,975,610
Internal service fund	297,973
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	2,277,537
Change in net assets of governmental activities	\$ 9,239,844

NOTES TO FINANCIAL STATEMENTS June 30, 2008

Note 1. Summary of Significant Accounting Policies

Reporting entity

The Town of Trumbull, Connecticut (the "Town") was incorporated as a town in the early 1600s. The Town covers an area of 23.5 square miles, and is located in Fairfield County, approximately 60 miles from New York City and 60 miles from Hartford. The Town operates under a First Selectman, Town Council and Finance Committee form of government and provides a full range of services including public safety, roads, sanitation, health, social services, culture and recreation, education, planning, zoning, and general administrative services to its residents. The accompanying financial statements conform to accounting principles generally accepted in the United States of America as applicable to governments.

Accounting principles generally accepted in the United States of America require that the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided by the Codification, Section 2100 has been considered and as a result, there are no agencies or entities that should be, but are not, included in the financial statements of the Town.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. However, agency funds, unlike other fiduciary funds, report only assets and liabilities and do not have a measurement focus, and follow the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied for. Intergovernmental grants and entitlements and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred except for 1) debt service expenditures, 2) expenditures related to compensated absences, 3) pension expenditures; and 4) claims and judgments which are recorded only when payment is due (matured).

Property taxes when levied for, intergovernmental revenue when eligibility requirements are met, licenses, fees, and interest associated with the current fiscal period are all considered to be measurable and so have been recognized as revenues of the current fiscal period, if available. All other revenue items and permits are considered to be measurable only when cash is received by the Town.

The Town reports the following major governmental fund:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Town reports the following major proprietary funds:

Water Pollution Control Authority - The WPCA accounts for the operations of the Town's wastewater treatment plant. It is independent in terms of its relationship to other Town functions. Its operations are financed from special assessments and direct charges to the users of the service.

Golf Course - This fund accounts for the operations of the Town's golf course, Tashua Knolls. It is independent in terms of its relationship to the Town functions. Its operations are financed from charges for customers.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Additionally, the Town reports the following fund types:

The *Internal Service Funds* account for the acquisition and use of certain vehicles of departments of the Town, and the medical and workers compensation reserves.

The *Pension Trust Funds* account for the activities of the Town's defined benefit plans, which accumulate resources for pension benefit payments to qualified employees.

The Agency Funds account for monies held as a custodian for outside groups and agencies.

The *Private-Purpose Trust Fund* accounts for assets held by the Town in a trustee capacity on behalf of others.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the proprietary fund and the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for enterprise funds and business-type activities, subject to this same limitation. The Town has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for services. Operating expenses for the funds include the cost of operations and maintenance and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Accounting estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and expenditures during the reporting period. Actual results could differ from those estimates.

Property taxes

Property taxes are assessed as of October 1 and are levied on the following July 1. Personal property taxes and real estate taxes are due in four installments, on July 1 and the following October 1, January 1, and April 1. Motor vehicle taxes are due in two installments, on July 1 and January 1. Liens are filed by the end of the fiscal year in which the taxes are collectible.

Cash and cash equivalents

The Town considers all highly liquid investments and debt securities with original maturities of three months or less when purchased to be cash equivalents.

Allowances for doubtful accounts

Accounts and notes receivable for the primary government are reported net of allowance for doubtful accounts. The allowance for doubtful accounts represents those accounts which are deemed uncollectible based upon collection history and analysis of creditor's ability to pay. The majority of amount relates to taxes receivable.

Investments

Investments are recorded at fair value, based on quoted market rates. The pension funds allow for certain collective trusts which are based on the most recent estimated value reported by fund managers.

The Connecticut State Treasurer's Short-Term Investment Fund is an investment pool managed by the State of Connecticut Office of the State Treasurer. Investments must be made in instruments authorized by Connecticut General Statutes 3-27c through 3-27e. Investment guidelines are adopted by the State Treasurer. The fair value of the position in the pool is the same as the value of the pool shares.

The balance of the pooled fixed income investments were invested in a pool similar to a 2a-7 pool. The fair value of the position in the pool is the same as the value of the pool shares and are recorded at amortized cost.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and proprietary fund financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the Town is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Duildings	50
Buildings Building improvements	50 20
Building improvements	
Distribution and collection systems Public domain infrastructure	50-65 50
	30
System infrastructure	
Machinery and equipment	5-20

Capital assets are reported as expenditures (capital outlay) and no depreciation expense is reported in the governmental fund financial statements.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Compensated absences

Town employees accumulate vacation and sick leave hours for subsequent use or for payment upon termination or retirement. Vacation and sick leave expenses to be paid in future periods are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for amounts that are due (matured).

Revenue - Proprietary Funds

Operating revenues for the proprietary funds encompass the following: Sewer Commission - billings for sewer assessments and user charges; and Golf Course - fees from players using the course.

Nonoperating revenues include interest income as well as any other receipts unrelated to the above activities.

Long-term obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Principal payments on bonds are reported as expenditures as they become due.

Risks and uncertainties

The Town invests in various securities, including commercial paper, government-sponsored enterprises, and alternative investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Subsequent to year-end, the credit and liquidity crisis in the United States and throughout the global financial systems has resulted in substantial volatility in financial markets and the banking system. This and other economic events have had a significant adverse impact on investment portfolios. Due to the level of risks associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of financial position and activities.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Pension accounting:

Pension Trust Funds

Employee contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the Town has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Governmental Funds

Expenditures are recognized when they are paid or are expected to be paid with current available resources.

Funding policy

The Town funds the contributions to its pension plans based on the required contributions made under Town ordinance.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as a reservation of fund balance as they do not constitute expenditures or liabilities.

Fund Equity and Net Assets

In the Government-Wide and Proprietary Fund Financial Statements, net assets are classified in the following categories:

Invested in Capital Assets, Net of Related Debt – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduces this category.

Unrestricted Net Assets or Deficits – This category represents the net assets of the Town, which are not restricted for any project or other purpose by third parties. Deficits require future funding.

In the fund financial statements, fund balances of governmental funds are classified in two separate categories. The two categories, and their general meanings, are as follows:

Reserved Fund Balance - indicates that portion of fund equity which has been legally segregated for specific purposes by outside parties and amounts that are not available for appropriation.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Undesignated and Unreserved Fund Balance - indicates that portion of fund equity which is available for appropriation and expenditure in future periods.

Note 2. Reconciliation of Government-Wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds, and net assets – governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this difference are as follows:

Bonds payable	\$ (77,485,536)
Net pension obligation	(41,929,824)
Compensated absences	(12,619,909)
Premiums on refunding	(363,135)
Deferred gain on refunding	298,498
Capital Lease	(334,978)
Claims and judgments	 (684,000)
Net adjustment to reduce fund balance – total governmental funds	
to arrive at net assets – governmental activities	\$ (133,118,884)

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds, and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay	\$	8,373,498
Depreciation expense		(4,758,416)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net	¢	3 615 092
assets of governmental activities	\$	3,615,082

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this difference are as follows:

Issuance of general obligation bonds Capital leases Principal repayments: General obligation debt Bond Anticipation Notes Capital leases Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of	Debt issued or incurred:	
Principal repayments: General obligation debt 5,915,588 Bond Anticipation Notes 9,360,000 Capital leases 150,404 Net adjustment to increase net changes in fund balances -	Issuance of general obligation bonds	\$ (11,965,000)
General obligation debt 5,915,588 Bond Anticipation Notes 9,360,000 Capital leases 150,404 Net adjustment to increase net changes in fund balances -	Capital leases	(485,382)
Bond Anticipation Notes 9,360,000 Capital leases 150,404 Net adjustment to increase net changes in fund balances -	Principal repayments:	
Capital leases 150,404 Net adjustment to increase net changes in fund balances -	General obligation debt	5,915,588
Net adjustment to increase net changes in fund balances -	Bond Anticipation Notes	9,360,000
•	Capital leases	 150,404
total governmental funds to arrive at changes in net assets of	Net adjustment to increase net changes in fund balances -	
	total governmental funds to arrive at changes in net assets of	
governmental activities \$ 2,975,610	governmental activities	\$ 2,975,610

Another element of that reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this difference are as follows:

Increase in net pension obligation	\$ (2,204,218)
Decrease in compensated absences	4,315,917
Decrease in accrued interest	92,998
Amortization of premiums	42,932
Amortization of gain/loss on refunding amounts	(35,292)
Debt issue costs	97,143
Amortization of debt issuance costs	 (31,943)
Net adjustment to increase net changes in fund balances - total	
governmental funds to arrive at changes in net assets of	
governmental activities	\$ 2,277,537

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Note 3. Budgets and Budgetary Accounting

General Fund

The Town's general budget policies are as follows:

- a. Prior to the first Tuesday in April, the Town Council votes to legally adopt the budget recommended by the Board of Finance, as prepared by the First Selectman, for the fiscal year commencing July 1. The budget includes proposed expenditures and anticipated revenues, together with the amount of revenue to be raised by general taxation.
- b. The Board of Finance is authorized to transfer budgeted amounts within departments provided such transfers do not increase a department's total appropriation. A number of such transfers were made during the year. Any one appropriation in excess of \$2,000 (\$10,000 during the course of any fiscal year) must be approved by the Town Council.
- c. Formal budgetary integration is employed on a line item basis as mandated by the Town Charter.
- d. Budgeted amounts shown in the accompanying financial statements are as originally adopted, or as amended by the Board of Finance or Town Council during the course of the year.
- e. Generally, all appropriations lapse at year-end.
- f. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the purchase order, contract or other commitment is issued and, accordingly, encumbrances outstanding at year-end are reflected in budgetary reports as expenditures of the current year. If an appropriation is not encumbered, it lapses at year-end and may not be used by the department.
- g. Classifications of certain revenues and expenditures under accounting principles generally accepted in the United States of America (GAAP) differ from classifications utilized for budgetary purposes.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

h. A reconciliation of the revenues, expenditures and fund equity of the General Fund presented in accordance with accounting principles generally accepted in the United States of America (GAAP) with the budgetary basis is as follows:

	 Revenues and Other Financing Sources	Expenditures and Other Financing Uses			
Budgetary basis	\$ 124,700,331	\$	124,780,281		
State on-behalf payments	6,005,000		6,005,000		
Capital lease	485,382		485,382		
Encumbrances:					
June 30, 2008	-		(513,384)		
June 30, 2007	 -		1,054,180		
GAAP basis	\$ 131,190,713	\$	131,811,459		

Special revenue funds

The Town does not have legally adopted annual budgets for the special revenue funds. Budgets for the various special revenue funds which are utilized to account for specific grant programs are established in accordance with the requirements of the grantor agencies.

Capital projects funds

Legal authorization for expenditures of the capital projects funds is provided by the related bond ordinances and/or intergovernmental grant agreements. Capital appropriations do not lapse until completion of the applicable projects.

Note 4. Cash and Investments

Policies:

<u>Deposits:</u> The Town has a policy that deposits can include demand and savings accounts and certificates of deposits. The Town's policy for custodial credit risk is to follow State statutes for coverage of its deposits. The State of Connecticut requires that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk based capital ratio.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Investments: The investment policies of the Town conform to the policies as set forth by the State of Connecticut. The Town policy allows investments in the following: (1) obligations of the United States and its agencies; (2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof; and (3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the Connecticut Short Term Investment Fund and the Tax Exempt Proceeds Fund. The Town's custodial credit risk policy states that the investment company or trust must take delivery, through a custodian, of all collateral. The Town's credit risk policy states that obligations of the State of Connecticut and of the United States must not have a rating of less than the top three rating categories of any nationally recognized rating service.

The Town's policy for pension investments also includes common and preferred stocks, convertible securities, real estate investment trusts and American depository receipts. The pension plan's credit risk policy is that invested securities should be of a quality to qualify under the prudent man rule.

Their approved policies target an asset mix to provide the probability of meeting or exceeding the return objectives at the lowest possible risk. They set asset allocation parameters, as follows:

Large Cap Equities	40% - 70%
Small Cap Equities	0% - 10%
Mid-Cap Stocks	0% - 10%
Fixed Income	30% - 50%
International Equities	0% - 10%
Cash	0% - 20%

<u>Interest Rate Risk:</u> The Town and the pension policies limit their exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations and pension payments, thereby avoiding the need to sell securities on the open market prior to maturity, and investing idle funds primarily in shorter-term securities, money market mutual funds, or similar investment pools.

<u>Concentrations:</u> The Town and the pension policies are to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific issuer.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Custodial credit risk:

<u>Deposits:</u> This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2008 \$1,027,000 of the Town's bank balance of \$26,289,000 was uninsured and uncollateralized.

<u>Investments:</u> This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Cash and investments of the Town's investments consist of the following at June 30, 2008:

Cash and Cash Equivalents			
Deposits with financial institutions	\$	23,152,990	
State of Connecticut Short-Term Investment fund		1,111,741

^{*} These investments are uninsured and unregistered, with securities held by the counterparty, but not in the Town's or Pension Trusts name.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Cash and investments are classified in the accompanying financial statements as follows:

Statement of Net Assets	
Cash and cash equivalents	\$ 21,877,272
Investments	 4,178,908
	26,056,180
Fiduciary Funds:	
Cash and cash equivalents	2,575,721
Investments	50,806,710
	 53,382,431
Total cash, cash equivalents and investments	\$ 79,438,611

<u>Interest rate risk:</u> This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the Town's debt type investments to this risk using the segmented time distribution model is as follows:

		Investment Maturities (in Years)								
	Fair •		Less Than		1-5		6-10		Over	
Type of Investment	Value		1 Year		Years		Years		10 Years	
Asset and Mortgage-Backed	\$ 2,200,455	\$	_	\$	1,178,009	\$	344,003	\$	678,443

TOTAL	\$ 19,376,515	\$	2,281,371	\$	5,737,666	\$	5,390,654	\$	5,966,824	

<u>Credit Risk:</u> Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. Presented below is the minimum rating as required for each debt type investment.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Note 5. Deferred Revenue/Unearned Revenue

Governmental funds report deferred revenue in connection with revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds and governmental activities also report unearned revenue in connection with revenues that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned revenue and deferred revenue were as follows:

	 Deferred Revenue	Unearned Revenue
General Fund:		
Taxes and accrued interest on delinquent property taxes	\$ 2,976,889	\$ -
Taxes collected in advance	-	51,172
Intergovernmental	5,013,490	-
Nonmajor Funds:

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Net pension obligation

The net pension obligation, the cumulative difference between annual pension cost and the Town's contributions to the plans since 1986, is calculated on an actuarial basis consistent with the requirements of Government Accounting Standards Board Statement No. 27. Expenditures are recognized when they are paid or are expected to be paid with current available resources. The pension obligation is recorded as a noncurrent liability in the government-wide financial statements, and is approximately \$41,930,000 at June 30, 2008.

Bond anticipation notes and subsequent event

The Town has \$17,000,000 of tax-exempt general obligation bond anticipation notes (BANS) outstanding as of June 30, 2008 and are recorded within long-term debt. The notes bear interest at 4.25%. In August 2008, \$15,000,000 of the BANS were refinanced through the issuance of \$18,205,000 of general obligation bonds and therefore recorded as long-term debt. \$2,000,000 of the BANS were rolled into new BANS in the amount of \$5,500,000 dated September 2008. The notes bear interest at 2.5%.

Bond anticipation note transactions for the year ended June 30, 2008 were as follows:

Outstanding, July 1, 2007	\$ 12,250,000
New borrowings	17,000,000
Repayments	(12,250,000)
	 _
Outstanding, June 30, 2008	\$ 17,000,000

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

General obligation bonds

As of June 30, 2008, the outstanding general obligation bonds of the Town were as follows:

	Outstanding Amount
\$9,375,000 general obligation bonds; issue of 12/15/89; due 6/15/09; interest at 6.35% to 6.7%	\$ 359,600

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

In-Substance Defeasance

In prior years, the Town has defeased various bond issues by creating separate irrevocable trust funds. As of June 30, 2008, the amount of defeased debt outstanding, but removed from the Town's government-wide financial statements, amounted to the following:

2002 Refunding	\$ 8,640,000
2004 Refunding	 8,375,000
Total	\$ 17,015,000

The annual debt service requirements for all bonded debt are as follows including bond anticipation notes are financed:

Authorized but unissued bonds

The Town has authorized but unissued bonds relating to capital projects at June 30, 2008 as follows:

General purpose	\$ 5,738,000
Schools	 57,574,544
Total	\$ 63,312,544

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Legal debt limit

The Town's indebtedness (including authorized but unissued bonds), net of principal reimbursements expected from the state, does not exceed the legal debt limitation as required by the Connecticut General Statutes as reflected in the following schedule:

Category		Debt Limit	Indebtedness	Balance		
General purpose	\$	257,756,276	\$ 40,317,943	\$	217,438,333	
Unfunded pension benefit obligation		343,675,035	-		343,675,035	
Schools		515,512,552	105,881,137		409,631,415	
Sewers		429,593,794	44,495,062		385,098,732	
Urban renewal		372,314,621	-		372,314,621	

The total overall statutory debt limit for the Town is equal to seven times annual receipts from taxation, or \$801,908,415.

Note 9. Commitments and Contingencies

Lawsuits

There are several personal injury, negligence and personnel related lawsuits pending against the Town. The outcome and eventual liability of the Town, if any, in these cases is not known at this time. Based upon consultation with legal counsel, the Town's management estimates that potential claims against the Town not covered by insurance, resulting from such litigation would not have a material adverse affect the financial condition of the Town.

Municipal Solid Waste Service Agreement

The Town has entered into a municipal solid waste agreement, as amended (the "Service Agreement") with the Connecticut Resources Recovery Authority (the "Authority") pursuant to which it participates with seventeen other Connecticut municipalities (the eighteen constituting the "Contracting Municipalities"), in the Greater Bridgeport Resources Recovery System (the "System").

Under the Service Agreement, the Town is required to deliver, or cause to be delivered, to the System solid waste generated within its boundaries up to its minimum commitment of 23,000 tons per year and to pay a uniform per ton disposal service payment (the "Service Payment"). The current fee is \$81 per ton. The aggregate minimum commitment of the eighteen Contracting Municipalities is 400,000 tons per year. The Town's Service Payment commitment is a "put-or-pay" commitment, in that if the aggregate minimum commitment of the Contracting Municipalities is not met by the total deliveries of all the Contracting Municipalities in any year, the Town must pay the Service Payment for its proportionate share of the shortfall of the aggregate minimum commitment (even if it did deliver its full portion).

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Service payments shall be payable so long as the System is accepting solid waste delivered by or on behalf of the Town, whether or not such solid waste is processed at the facility. The Town has pledged its full faith and credit to the payment of Service Payments and has also agreed to enforce or levy and collect all taxes, cost sharing or other assessments or charges and take all such other action as may be necessary to provide for the payment of the Service Payments.

If any Contracting Municipality shall default in the payment of any Service Payments, the other Contracting Municipalities shall pay their share of the amounts unpaid by the nonpaying Contracting Municipality.

Note 10. Fund Deficits

The Town has the following fund deficits at June 30, 2008:

	Fund Deficit
Special Revenue	
Millington League Settlement	\$ (75,853)
Capital Projects Fund	
Land Acquisition	\$ (2,445,954)
Local Capital Improvement	(411,050)
Resurfacing of Tennis Courts	(4,670)
Daniels Farm Road Bridge	(17,571)
Agricultural Science Building	(375,322)
New Elementary School	(425,928)
Trumbull High School-Like New	(503,185)
Rails to Trails	(1,178,969)
	\$ (5,362,649)

The Town anticipates financing the fund deficits in the Capital Projects funds through future bond issues and/or revenues. The Special Revenue deficit will be recovered through future operations.

Note 11. Employee Retirement Plans

The Town has two contributory pension plans covering substantially all full-time Town and non-certified Board of Education employees. One plan covers employees of the Police Department and the other plan covers all other employees. The certified faculty and administrative personnel of the Board of Education participate in a contributory retirement plan administered by the State Teachers' Retirement Board. The Town does not contribute to this plan.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

The Town of Trumbull Police Benefit Plan

Plan Description

The Town of Trumbull is the administrator of a single employer public employee retirement system (PERS) established and administered by the Town to provide pension benefits for its Police employees. The PERS is considered to be part of the Town's financial reporting entity and is included in its financial reports as a pension trust fund.

The Town of Trumbull Police Benefit Plan provides retirement, death and disability benefits through a single employer, contributory, defined benefit plan. Benefits vest after 10 years of service. Members may retire on or after age 47 with at least 25 years of service. A retirement benefit of 2% of final annual pay for each year of service (maximum 25 years) plus an additional 1.25% for each full 3 months of service after 25 up to a maximum benefit of 75% is payable monthly for life. At the member's death, 50% of the benefit is payable to the surviving spouse. If a member leaves employment or dies prior to vesting, accumulated employee contributions with 5.5% interest compounded semi-annually are refunded. Post retirement increases equal 50% of the increase in current pay for active members of the same grade (pro-rated for less than 25 years service). Benefits and contributions are fixed by contract and may be amended by union negotiation.

Contributions

Employees are required to contribute 6% of their monthly salary to the PERS. The Town is required to contribute the remaining amounts necessary to fund these benefits.

Plan Changes

The latest actuarial valuation reflects no material change in benefit provisions of the Plan.

The latest actuarial valuation reflects no material changes in the actuarial assumptions or methods.

Town of Trumbull Pension Plan

Plan Description

The Town of Trumbull is the administrator of a single employer public employee retirement system (PERS) established and administered by the Town to provide pension benefits for its full-time employees other than Police, firefighters and teachers. The PERS is considered to be part of the town's financial reporting entity and is included in its financial reports as a pension trust fund.

The Town of Trumbull Pension Plan provides retirement, death and disability benefits through a single employer, contributory, defined benefit plan. Benefits vest at 50% after 5 years of service and increase an additional 10% per year to 100% after 10 years. Employees can retire on or after age 62 if they have at least 5 years of service, or after age 60 if age plus years of service equals at least 85. Employees who retire at these ages are entitled to an annual retirement benefit, payable monthly for 10 years certain and life, in an amount equal to 2% of Final Earnings for each year of service. There is a maximum annual pension of 60% of Final Earnings, and a minimum annual pension of \$1,200. Final

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Earnings is the employee's average earnings during the 36 consecutive months that produces the highest average. Employees may retire early on or after age 55 with at least 10 years of service with a benefit reduced ½% for each month the early retirement date precedes the normal retirement date. The death benefit provides a benefit to a beneficiary of a fully vested participant of 120 months of retirement benefits beginning at the participant's normal retirement date as long as the beneficiary does not receive the deceased participant's employee contributions with credited interest and the proceeds from the \$25,000 life insurance policy are assigned to the pension plan. Employee contributions with credited interest are returnable on termination or death while active or retired (less any benefits paid) provided, in each case, that no death benefits are otherwise payable. Benefits and contributions are fixed by contract and may be amended by union negotiation.

Contributions

Employees are required to contribute 3.5% of their monthly salary to the PERS. The Town is required to contribute the remaining amounts necessary to fund these benefits.

Plan Changes

The latest actuarial valuation reflected no material changes made in the benefit provisions of the plan.

The latest actuarial valuation reflects no material changes in actuarial assumptions or methods.

Membership

Membership in the Plans consisted of the following at July 1, 2006, the date of the last actuarial valuation:

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Connecticut State Teachers' Retirement System

The faculty and professional personnel of the Board of Education participate in a contributory defined benefit plan, established under Chapter 167a of the Connecticut General Statutes, which is administered by the Connecticut State Teachers' Retirement Board. A teacher is eligible to receive normal retirement benefits if he or she has attained age sixty and has accumulated twenty years of credited service in the public schools of Connecticut or has attained any age and has accumulated thirty-five years of credited service, at least twenty-five of which are service in the public schools of Connecticut. The State of Connecticut Teacher Retirement System is considered to be a part of the State of Connecticut financial reporting entity and is included in the State's financial reports as a pension trust fund. Those reports may be obtained by writing to the State of Connecticut, Office of the State Comptroller, 55 Elm Street, Hartford, Connecticut 06106.

Certain part-time and full-time certified teachers are eligible to participate in the plan and are required to contribute 7.25% of their annual earnings to the plan. The Town does not, and is not legally responsible to, contribute to the plan.

The State of Connecticut contributes based on actuarially determined amounts. The funding level is determined based on an actuarial valuation of the plan as a whole, which does not provide actuarial information on an individual city/town basis.

In addition, the Town has recognized revenues and expenditures for on-behalf payments for pension contributions paid directly to the Connecticut State Teachers' Retirement System by the State of Connecticut. Such on-behalf payments were approximately \$6,005,000 for the year ended June 30, 2008.

Note 12. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to and health of employees; and natural disasters. The Town generally obtains commercial insurance for these risks. The amount of settlements has not exceeded insurance coverage in any of the past three years.

The Town maintains stop loss insurance on workers' compensation and heart and hypertension claims. The Town's maximum exposure for the year ended June 30, 2008 was \$1,000,000 in the aggregate and \$500,000 per incident. The Town and its actuary estimate a liability for both workers' compensation claims payable and for claims incurred but not reported.

The Town does not maintain stop loss coverage with respect to dental or prescription drug claims.

At June 30, 2008, \$2,283,000 has been accrued for self-insurance claims payable and for incurred but not reported claims related to worker compensation and heart and hypertension claims.

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

Claims and liabilities are estimated based on claims paid for the year. Claim transactions for the last two years for the entire program are as follows:

				Current Year Claims and				
	Cla	aims Payable		Changes in			CI	aims Payable
Fiscal Year Ended		July 1,	Estimates		Claims Paid		June 30,	
2007	\$	1,665,471	\$	1,451,366	\$	833,102	\$	2,283,735
2008	\$	2,283,735	\$	924,103	\$	924,103	\$	2,283,735

Note 13. Extraordinary Item

The State of Connecticut issued approximately \$2.3 billion in taxable general obligation bonds to be used for deposit into the State of Connecticut Teachers' Retirement Fund. As contributions to the fund represent on-behalf payment to the Town, an amount of \$24,241,000 has been recorded as an extraordinary item in the Town's financial statements.

Note 14. Pronouncements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued several pronouncements that have effective dates in the future that may impact future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements of the Town:

- GASB Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions," issued June 2004, will be effective for the Town beginning with its year ending June 30, 2009. This Statement establishes standards for the measurement, recognition and display of other postemployment benefits, expenses and related liability or assets, note disclosures and, if applicable, required supplementary information in the financial reports.
- GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets," issued June, 2007. Governments possess many different types of assets that may be considered intangible assets, including easements, water rights, timber rights, patents, trademarks, and computer software. Intangible assets, and more specifically easements, are referred to in the description of capital assets in Statement No. 34, "Basic Financial Statements and Management's Discussion and analysis for State and Local Governments." This reference has created questions as to whether and when intangible assets should be considered capital assets for financial reporting purposes. An absence of sufficiently specific authoritative guidance that addresses these questions has resulted in inconsistencies in the accounting and financial reporting of intangible assets among state and local governments, particularly in the areas of recognition, initial measurement, and amortization. The objective of this Statement is to establish accounting and financial reporting requirements for intangible assets to reduce these inconsistencies, thereby

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2008

enhancing the comparability of the accounting and financial reporting of such assets among state and local governments. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2009.

- GASB Statement No. 52, "Land and Other Real Estate Held as Investment by Endowments". This Statement establishes consistent standards for the reporting of land and other real estate held as investments by essentially similar entities. It requires endowments to report their land and other real estate investments at fair value. Governments also are required to report the changes in fair value as investment income and to disclose the methods and significant assumptions employed to determine fair value, and other information that they currently present for other investments reported at fair value. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2008.
- GASB Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments". This Statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. Derivative instruments are often complex financial arrangements used by governments to manage specific risks or to make investments. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2009.
